- The plan is to make simple and practical arrangements for pick-up or drop-off of the items in a timely manner.
- A list of wish list items as well as pass forward items will be created and added to our website.
- NED would attempt to find a school for the equipment.
- If any school is in need of specific items, please feel free to send an email to Kathy Houston or a member of NED.
- The program is a pilot program with hope for success and a chance to pass it forward for students teachers & programs.
