VIDEOTAPE GUIDELINES

The purpose of the videotape is to provide a sample of your professional performance. As a teacher you understand that while interviews and applications are important, there is no substitute for watching someone teach, assess children or conduct a consultation in their typical school setting. The videotape does not need to be sophisticated in terms of production. The purpose is to capture your teaching, articulation as an advocate for physical education in a meeting, or your interaction with other professionals regarding physical activity services for individuals with disabilities. The following guidelines will help you prepare the videotape:

1. **VHS video is not required for IAHPERD TOY. A videotape, CD-ROM or DVD of a “best practice” (from a lesson, meeting, community activity or consultation) is a requirement for recipients participating in the selection process for National APE TOY at the AAHPERD National Convention.** You will be notified if you are a Midwest District winner.
2. Portfolios or videos of student performances are not acceptable.
3. **The tape must be no longer than twenty (20) minutes in length from start to finish.** You should not edit the tape. The videotape provides a glimpse of your teaching skills and professionalism. **Do not send a tape of more than 20 minutes recorded.**
4. The tape should show one APE practice of which you are proud. Write a summary of the video that will put it into a context and add narration if needed to explain what is going on. This summary should include:
 - a. Brief description of the context, i.e. lesson for... parent meeting/IEP meeting, consultation with classroom teacher, etc.;
 - b. Characterization of students, meeting participants, role/background of participants, etc.;
 - c. Goal/objective(s) to be accomplished, i.e. from IEPs of students, annual review of IEP, placement decision, etc.;
 - d. How this segment fits into the larger whole, i.e. where will you go from here?
5. The video must have a verbal (less than 5 minutes on the tape) or written (submitted with the tape) introduction which includes:
 - a. School demographics;
 - b. Grade/age level of the class/students being taught/discussed;
 - c. Manner in which student(s) featured is/are typically served;
 - d. General nature of disabilities of the student(s).
6. The videotape may be from any area of your role, but must represent only one such role/situation, i.e. if you only function in a consulting role, your interaction with the professionals with whom you consult may be all that is recorded. The committee wants you to feel good about the tape you send, so do not hesitate to make several tapes and submit the best one.
7. The committee assumes that most of the videotapes will be made on video recorders. It is understood that some of you will need to set up the camera and just “let it run”. This is acceptable, as long as the camera is positioned so that you, the teacher, are in clear view and the audio can be clearly understood. It is best if you wear a microphone. The committee is not judging the quality of your production capabilities; so do not use subtitles, music, or special effects. All tapes submitted must be VHS.
8. Your tapes will not be returned.
9. Your tape may be used by AAPAR/APAC as a demonstration of best practices in APE.
10. Do not send notebooks, portfolios, or photo displays.
